NEW WORLD. NEW THINKING.™

Lenovo® recommends Windows Vista® Business.

THOUGHTFULLY DESIGNED FOR PEOPLE WHO NEED PORTABILITY AND DURABILITY IN A THIN, LIGHT, AND ELEGANT DESIGN WITH ADVANCED TECHNOLOGY

THE LENOVO® THINKPAD® T400s NOTEBOOK

ENERGY EFFICIENT PERFORMANCE

- Industry leading mobile performance with powerful Intel® Core™2 Duo SP9400 and SP9600 Standard Volt processors. Intel® Turbo Memory that speeds boot time, loads applications quicker and saves power
- Pre-loaded with Genuine Windows Vista® Business
- 14" LED Backlit widescreen display with brighter and crisper colors, and anti-glare display for wider viewing angles. Also helps to reduce power consumption to increase battery life
- ThinkPad T400s, an Energy Star® 5.0 qualified product is very environment friendly with mercury and arsenic free low-power displays, improved packaging, and low power Solid State Drives.
- Green power management for energy efficiency and environmentally responsible systems

WIRELESS MOBILITY AND EXPANDABILITY

- Move anywhere with the best wireless performance. WWAN, WLAN, WiMax, Ultra-wideband, and Bluetooth for flexibility in connectivity. WWAN gives global professionals access to the information they need, quickly and securely
- Mini Docking and Port Expansion Solutions include:
  - ThinkPad Port Replicator Series 3
  - ThinkPad Mini Dock Series 3
  - ThinkPad Mini Dock Plus Series 3

The ThinkPad T Series notebooks are designed to give a perfect blend of portability, performance, and energy-efficiency. The new enhanced ThinkPad T400s design extends the ThinkPad X300 experience to the large enterprise space, incorporates the best T series features, and at the same time achieves these at a reduced system price.

The notebook is equipped with a wide range of technologies and features. Major enhancements are made to an already best-in-class keyboard through improved ergonomic design, a new multi-touch TouchPad for easier navigation, individual microphone and speaker audio mute buttons, and fingerprint reader with LED indicators. The thoughtfully designed keyboard incorporates larger Esc and Delete keys for easier use.

The ThinkPad T400s enables the user to run two independent displays natively without a Mini Dock. Features include: a Standard USB 2.0, a Powered USB 2.0, and an eSATA/USB 2.0 Combo Port. In addition, it comes with the choice of a 34mm Express Card slot or a 5 in 1 multimedia card slot, and next generation Series 3 Port Replicators and Minidocks.

T400s is optimized for VoIP with dual digital microphones, an integrated 2MP camera, louder speakers, and VoIP Fn+F6 hotkey combination. The integrated camera offers an improved user experience for video-centric applications. It can be used for video-integrated instant messaging, conferencing, and Internet telephony.

The ThinkPad T400s includes the ThinkVantage® Client Security Solution with an integrated fingerprint reader for extra protection against data theft. Fingerprint Power-On Authentication in T400s provides power-on or wake-up from Suspend/Hibernate states, directly from the fingerprint reader.

The best-in-class features enhance business success by providing capabilities built for greater reliability, productivity, security, manageability, and connectivity. It provides an added advantage to the mobile computing experience and mobile IT infrastructure.

LENOVO® THINKPAD® T400s ACCESSORIES AND SERVICES

DESIGNED FOR MOBILITY

Constant Connect and Protect - 34mm Expresscard (332120U)

ConstantConnect provides the latest innovation in always-on computing for mobile professionals with greater flexibility to manage their e-mail on the move.

Get your email while your ThinkPad is off, through your Blackberry®.

On-the-go professionals rushing between flights or sitting in a taxi can get the latest e-mail without having to stop, turn on their PC, or login over a Wi-Fi hotspot.

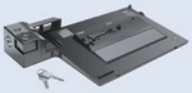
Note: Available 9/2009 - US Only

ThinkPad and Lenovo 90W Slim AC/DC Combo Adapter (41N8460)

The adapter supports AC or DC power and is compatible with wall, vehicle, and airplane power outlets for charging your ThinkPad and Lenovo Value line notebooks.

The adapter can be used to charge most new and legacy Lenovo notebook systems using interchangeable tips.

The optional dual charging cable attaches to the adapter to simultaneously charge both the notebook and a peripheral device.



ThinkPad Series 3 Port Replicator and Docks

Access to peripherals is quick and easy, these solutions offer basic to advanced cable management, including dual multiple monitors.

- ThinkPad Port Replicator Series 3 (4336-10W) – basic cable management
- ThinkPad Mini Dock Series 3 (4337-10U) – enhanced cable management, security, and dual monitors
- ThinkPad Mini Dock Plus Series 3 (4338-10U) – advanced functionality supporting dual display, dual DVI and eSATA

ThinkPad T400s 6 Cell Battery (51J0497)

Stay unplugged longer with the help of spare ThinkPad system batteries. With spare ThinkPad batteries, you can work and stay productive without being tied to an electrical outlet.

Batteries for all-day computing provide extended-life battery options. All-day computing is a reality when you combine the unique battery technologies on select ThinkPad notebooks.

ThinkPad Checkpoint Friendly Case (51J0418)

The case is designed to help travelers get through the security checks, quicker and with less hassle. This case allows you to pass through the security-checkpoint without removing your notebook from the bag. (Adheres to U.S. TSA guidelines)

ThinkPad USB Portable Secure Hard Drive – 160GB (43R2018), 320GB (43R2019)

Secure your valuable data in a slim, lightweight, self-powered, easy-to-use design with features that include:

- High-speed USB 2.0 interface
- Encrypted stored data
- Software installation not required with Microsoft® Windows® XP and Windows Vista®
- AC power adapter is not required

Lenovo USB-to-DVI Monitor Adapter (45K5296)

Connecting external monitors to your notebook through USB made a reality. Connect your LCD monitors to your notebook using a simple plug-n-play connector, which enables access to increased screen real estate.

PRODUCTIVITY, PERFORMANCE AND SECURITY

ThinkPlus Support Services	ThinkPlus Protection Services	ThinkPlus Enterprise Solutions Contact your Lenovo Services Sales Executive for more information and assistance with customer proposals.
ThinkPlus Priority Support A single, comprehensive service plan to help reduce overall helpdesk costs and free up internal IT resources. 24 x 7 x 365 priority call routing to advanced level technicians, software support and IT management tools let IT staffs focus on more strategic projects. **ThinkPlus Warranty** Base warranty extensions prevent costly out-of-warranty repairs. Warranty upgrades provide a higher level of service at any time during your warranty period. Convenient award-winning support with peace of mind.	**ThinkPad Protection (Accidental Damage Protection)** ThinkPad Protection covers damages not covered under warranty and provides unlimited repairs and/or system replacement in the event of accidental damages, drop and electrical surges. **Lenovo Online Backup** Lenovo Online Backup is a secure, offsite data encryption and storage solution that protects your business files and allows you to restore them via an Internet connection. Available in 10GB, 25GB, 50GB, or unlimited storage options. Simple. Online. Secure. **Hard Disk Drive Retention** If a hard drive fails and it is still covered under warranty, rather than returning the defective part, Hard Disk Drive Retention lets you keep your old drive and hold on to your data. **ThinkPlus Secure Business (bundle)** Protects your ThinkPad and secures your data with an all-in-one solution – ThinkPad Protection, Lenovo Online Backup, and Next Business Day Warranty Upgrade – all for one low price. Available in 1 year or 3 year term.	**Asset Recovery Service** A convenient end-to-end solution to manage retiring assets. Lenovo provides single source accountability and manages the process from environmentally-responsible asset disposal and recycling to secure data destruction and disk wiping. Quick. Easy. Green. **Custom Imaging Services** Lenovo provides image creation, image management, and image deployment services. Lenovo imaging services are proven to lower customer costs, support faster image deployment, reduce end-user downtime and post-deployment errors.
